Gentle Women

Who want glossy, luxuriant and wavy tresses, abundant, beautiful Hair must use LYON'S KATHARON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Katharon.

1880.

THE PEOPLE'S PAPER.

HERALD.

SALT LAKE DAILY HERALD.

The HERALD enters upon the new year with better hopes and brighter prospects than it ever before enjoyed. The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convince the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. The HERALD, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economical administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of men, rather than influence their passions, and working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the many details of the establishment, we confidently promise to make the SALT LAKE DAILY HERALD a better paper than ever.

SALT LAKE WEEKLY HERALD.

About the 1st of March, we will begin the publication of a Weekly Edition of the HERALD. The demand for such a paper has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main lines of travel and who are not accommodated with mail service often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for sending abroad—a paper that shall faithfully and honestly represent this great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circle and family bedside, one that shall contain the news, and at the same time contain the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit, to all members of the family. Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses. Nothing will be admitted to its columns that has not first been carefully prepared and revised. The price will be only \$2 a year, a figure unprecedentedly low for a first-class newspaper. We confidently predict for the WEEKLY HERALD one of the greatest successes, and the efforts of the publishers shall be to make the paper merit the popularity that it cannot fail to attain.

THE TAX LAW.

SALT LAKE CITY, Jan. 26, '80.

Editors Herald:

You and the readers of the HERALD will notice that in one of the letters to me, published in my letter to you of the 23d inst., the communication to me from the recorder of Cedar City, Mr. Haybourne, that a committee of investigation expressed the opinion that the property in the city, both real and personal, was, under the law of 1878, assessed too high. If so, this is not the fault of the law. The law of that year—p. 12, sec. 3; p. 16, sec. 17—requires the property "to be assessed at a fair cash valuation." If that city has cause of complaint on that account the remedy is to apply to the county court of Iron County—Sec. 18, p. 16; sec. 18—to equalize the assessment roll.

It has been asserted to me several instances that the property in Salt Lake County is appraised higher than in any other county of the territory. But this is only an assertion which may or may not be true. It is an assertion is not proof. It is therefore not proven that the property either in Cedar City or in Salt Lake County is assessed to high. My opinion on that matter would not be worth the paper it would take to write it.

State and territorial boards of equalization of assessment rolls or taxes, in common, are attended with great expense. They ought to be created only when in the opinion of the Legislature the good to be derived will overbalance the cost and expense of the establishment and the discharge of its duties.

On this point I will hazard the opinion that even though it could be established by competent authority in Cedar City and in Salt Lake County is assessed too high, yet it is better to bear it two years more than to add, at this session of the Legislature, that feature to the revenue act. Since the last session of our Legislature three tax cases have been before the courts. The counsel engaged in them were myself, my son Zera, Messrs. Rosborough & Merrill, Marshall & Royle, R. N. Baskin, and E. H. McPherson, all of whom, unless myself, and very few exceptions, are thorough gentlemen of law. In these suits our tax law of the last session stood the test, yet small defects were discovered. Three defects, however, did not go to the vitality of the act. They are such as can easily be remedied by the Legislature, with the approval of all. Some of these are referred to by Mr. Haybourne, of Cedar City, and Mr. Merriam, of Sanpete County.

I see by my letter of the 23d inst., that I stated I would reply to a copy of a letter, of which the one printed was a copy. I wish now to correct that statement in this. The letters I wrote to the city recorder were addressed to them as such, and the postscript contained the request that if you or the city council have discovered, etc.

In this part of the territory I know the officers in charge of the business had discovered defects in the act, as this letter freely shows; but as I entertained the opinion that this territory is a unity, and the subdivisions, fractional parts of that unit. I wanted to learn, as I had a right to learn, how it worked in the remote parts of the territory, from those best acquainted with it practically. Practice is better than theory.

Yours Truly, Z. Snow.

BERENADING COV. MURRAY.

THE NEW CHIEF EXECUTIVE OF UTAH

PLEASANTLY REMEMBERED.

Shakespeare has said that "some men are born great, some acquire greatness, and others have greatness thrust upon them." Yesterday, when it was known that President Hayes had sent the name of Gen. Eli H. Murray to the Senate, nominating him Governor of Utah, the judgment and wisdom of the selection of the chief magistrate of our nation were hailed with joy by the democrats as well as the republicans. Some months ago Gen. Murray took charge of the Commercial, since when, from an unassuming sheet, he has made it a bright, new journal. A city resident of a Kentucky gentleman, while he is the head of his own political party in the state, he has a host of warm friends and admirers among those whose political opinions may differ from his own. "Nothing succeeds like success," says the youngest brigadier general in the federal army. He has always pursued "the quiet tenor of his way," and while he has been offered anything that he might desire, yet he has never said a word of anything of the kind, and hence the compliment is all the more enhanced that he should be named Governor of Utah by President Hayes. Gen. Murray has a beautiful home on Fourth avenue, his parlors are furnished with furniture of the style of E. B. Eastlake, the walls are adorned with choice engravings, and the paintings of our own artist—Carl Brenner. Yesterday evening, a great number of his friends, including the recorder, and headed by E. B. Eastlake, band marched out Fourth avenue to his residence, to give the general, the future governor of Utah, whom they so much admired, honored and loved, a send-off. Arriving at his residence, the doors were thrown open, and every one gave his hearty congratulations to the general. After many toasts were drunk in champagne, and when the cigars were lighted, and as every one wished for a little speech from the general, Mr. James F. Buckner, jr., said: "Gen. Murray, we are here to-night to congratulate you on your nomination as Governor of Utah," to which the general replied: "Kentucky has been honored to have a man of your rank and position as a Kentuckian by the President, and that Kentuckian has been doubly honored by your presence here to-night, by you in whose heart of heart you have ever been and where you ever will be cherished." He then played "Home, Sweet Home," and the serenaders went their way to their homes, glad of the general's nomination, and at the same time with a feeling of sadness that if the nomination was accepted, he would leave a vacant place in their midst that no one but himself could fill.—Louisville Courier-Journal.

Garibaldi Married.

Rome, 26.—Telegrams from Capri announce that a civil marriage ceremony between General Garibaldi and Donna Francisca was performed to-day. The general was accompanied by his two children, Manlio and Ceila.

TELEGRAPHIC TILDEN AND TAMMANY.

Both Struggling for the Boss-ship—The Worry Over Grant.

New York, 27.—Members of the democratic state committee and others, and Tammany democrats began to assemble at Albany this evening. It is said that the places of five Tammany members would be filled at the meeting, to-day, with friends of Tilden, who, as the latest story goes, will be the candidate for the presidency, but wishes to control the New York delegation so that he may be able to reward his friends.

The republican state committee will meet in this city on Saturday to appoint a time and place for holding the state convention. Grant men will urge an early day.

The Tribune continues strong for Blaine, and says where delegates so far have been instructed at all they have been instructed for Blaine.

A Philadelphia special to the Herald, says Geo. W. Childs, the correspondent of the Tribune, has been instructed to say that Grant's best friends have not urged his candidacy for a third term. If he should publicly declare he would propose them. Of course they will support him if he is nominated, and not one of them would attempt to influence the general by persuasion one way or the other.

Washington, 27.—Recent publications the effect that Grant's nearest friends are as authorized to announce that he is not a presidential candidate are known to have been impelled by the hope of eliciting contradictions of the fact from certain gentlemen. This expectation failed, but it can be said on good authority that one of the general's friends, who is one of his friends, will make a statement on his behalf which will definitely settle Grant's status as a factor in the coming presidential struggle.

Chicago, 27.—Journal of the New York: The Tildens and Tammanys have gone in force to Albany, each striving to obtain an advantage over the other in the selection of the state committee. Telegrams are received by rivals commanding their presence. It is understood that the two Tildens will be appointed will be Clauson, the brewer, and Henry Havemeyer. The former will represent the German on the committee, and is regarded as favored by Oswald Claessens, proprietor of the Staats Zeitung.

The Masonic Emblems.

New York, 27.—World's cable: Alexandria, 26.—Dr. Pantan, a highly instructed Mason, has finished a careful examination of the foundations of the obelisk, and confirms Lieutenant Commander Garrigue's discovery of Masonic emblems, which establish the relations of many ancient monuments. Pantan declares the Hiram version of Masonry, which originated with the construction of Solomon's Temple, is disproved by the revelations of the foundations of the obelisk. The Masonic emblem of life and the sun, beyond the obelisk, is the monument of the Egyptian god Osiris. This proves that Masonry originated with the construction of the pyramids, or at least with a far remote period than the construction of the obelisk. The number of blocks comprising the foundation, as well as their position and arrangement, indicate that the ancients were familiar with a higher degree of Masonry, at least as high as the eighteenth degree. Many points undiscussed by Garrigue were fully explained by Pantan, from a Masonic point of view. This discovery, due to other important discoveries, not only under the fallen obelisk, but also in other parts of Egypt, rendering probable the solution of the mystery of the construction of the pyramids. Among the discoveries was found a perfect cube, and also emblems of all Masonic foundations. Garrigue, who is a member of the Masonic fraternity, entirely approves Pantan's explanation, and gives this dispatch his entire sanction.

The World says, editorially, of the above: We print the above as received, but readers of the World would do well to have a confirmation of the particulars by Garrigue.

A. U. T. Co.

New York, 27.—The new American Union Telegraph Company was opened for business yesterday, to Buffalo, Boston, Baltimore and Canada and intermediate points. The rates charged were exactly the same as the Western Union. Officers said they were not really ready for business, and would not be until about March 1st. They had consented to anticipate that date merely to accommodate the new French Cable Company, which desired to commence the transmission of messages to France and the continent yesterday. The rates asked by the latter company are also similar to those of their competitors, the Anglo-American and Direct Cable Companies. When asked whether no reduction was intended, officers of the American Union Company said the question of rates had not yet been considered by the board of directors, and they really could not give any definite information on the subject.

Australia.

Washington, 27.—The consul general at Melbourne writes the state department on December 1st, that several companies have been formed to develop the production of petroleum, found in large quantities of good quality in various parts of the colony. The trade of the United States with Great Britain is over \$70,000,000; with the United States less than \$5,000,000.

A Battling Rattler.

Deadwood, 27.—The Rattler Mine, a southern extension of the Homestake, was sold on Saturday to a Californian, for \$50,000.

UTAH

CONSERVATORY OF MUSIC

SALT LAKE CITY.

ESTABLISHED 1875.
